

THERE'S ONLY ONE YOU LET'S KEEP IT THAT WAY

Identity theft is a real and growing threat to your financial security: in 2003, two separate studies (one by Gartner Research, the other by Harris Interactive) found that approximately 7 million people were victims of identity theft in the previous year.

Identity theft, which includes credit card, phone, utility and bank fraud, as well as other types of fraud, can hurt you financially, damage your credit and cause legal troubles. Resolving identity theft is almost always difficult, time-consuming and stressful.

Luckily, your Employee Assistance Program (EAP) from MHN is here for you. You can call our toll-free number any time for identity theft prevention tips and tools, and in the unfortunate event that you are a victim, we can help.
